Good	Everything worked well.
Good	The Nurse was pleasant and dealt with the task in hand efficiently and professionally.
Good	I was able to discuss with my doctor aspects of my ongoing treatment at the hospital and also discuss the mental health issues associated with the condition.
Good	The doctor responded to my concerns appropriately and prescribed medication to treat my severe reaction to pollen.
	Only thing stopping me from giving 'very good' was half hour behind appointment time. I
Good	understand however that it's not easy to keep to a strict timetable.
Good	Doctors the best dispenser the worse
Good	Delayed by 30 minutes before seeing the gp
Good	40 minutes wait not ideal
Good	Long wait past the appointed time.
Good	Nurse was great, having to ring for appointments is time consuming should be on the app
Good	Been on time
Good	It was a blood test, and the nurse seemed to struggle a bit (I wasn't looking!) and left an angry looking bruise. But it didn't hurt!
Good	Good service

Good It was a long wait but thank you for eventually bringing the appointment forward.  Good Best Doctors shame about the dispensary  This appointment was made because my mum needed to be placed in a residential care environment as she is becoming incontinent and as her son i would not clean her up. Dr Henny understood this and acted promptly to try to find a step-up bed for mum but sadly Prospect decided that they could only do an assessment the following day. This in my opinion was callous when it was made clear i needed to get a resolution that day as mum's mattress was not useable, so she had no bed for the night, so, Laurel Bank 10 out of 10. Prospect 0 out of 10. Pros		- 2 -

Very Good	I booked the appointment on the NHS app which was great. Don't wait long to see the GP, it's my normal al GP so didn't have to explain everything again which is great for continuity of care. Some of my prescription was not in stock, perhaps give the option of taking the script to a different chemist?

#### **Not Recommended**

Very poor	Very poor service on reception trying to get a blood test

#### **Passive**

Neither good nor poor	Everything was fine apart from the one hour wait to see the doctor wasn't very happy considering I left work early
Neither good nor poor	Although my visit with the diabetic nurse went relatively well, I was told that the results would be back in 2 days. I heard nothing back and I rang the surgery today. The receptionist told me that the results were back, but the doctor hadn't signed them off. As a patient I always try to everything that I am advised to do. I feel that the GP should have signed the results off and that I should have been informed of the results. Why does it take so long the GP to do this. I had the same with the pharmacy, my medicines have taken 8 days for the GP to sign them off.
